Email address: **hferrero@co.livingston.ny.us**

2. Data information

Originator: **Livingston County Planning Department & Livingston County Sheriff's Office**
Publication Date, if any: **January 2015**
Title: **Roads**
Description: **Roads in Livingston County**
Purpose: **To establish locations and classifications of roads in Livingston County for reference and informational purposes**
Supplemental information:
Time period of content and/or data current as of: **August 2015**
Status of work: completed in progress planned or other:
Update frequency: annually irregular unknown or other:

Spatial reference information

Geographic coordinate system name: **GCS_North_American_1983**

Other:

Projected coordinate system name: **NAD_1983_UTM_Zone_18N**

NAD_1983_StatePlane_New_York_West_FIPS_3103_Feet

Other:

Horizontal datum name: North American Datum of 1983

Other:

Access constraints: Public information

Not to be accessed by unauthorized personnel

Data quality

Data consistency:

Data completeness: **Data updated as new roads are created.**

Data set credit/source: **First created using the 2006 Real Property Tax Digital Parcel layer; Maintained by the Livingston County Planning Department**

Attribute information

Attribute label: **SUFFIX_CON**

Attribute definition: **Street name suffix**

Attribute label: **SHIELD**

Attribute definition: **Shield type (C=County, S=State, U=US)**

Attribute label: **HWY_NUM**

Attribute definition: **Highway Number**

Attribute label: **NAME_FLAG**

Attribute definition: **A coded indicator of whether a street name is most appropriate for statewide or cross-country routing (field content = '1'); whether a street name is most appropriate for geocoding (field content = '2'); and whether the routing name is also appropriate for geocoding purposes (field content = '3').**

Attribute label: **FCC**

Attribute definition: **The feature class code with which the street segment is associated.**

Attribute label: **ACC**

Attribute definition: **The set of Arterial Classification Codes (ACCs) is the Tele Atlas(R) system for categorizing roads according to the level of travel mobility that they provide in the road network. Mobility refers to the volume of traffic that a stretch of road carries and the length of trip that it serves. Valid entries are '1' for roads with highest mobility, through '5' for roads with least mobility.**

Attribute label: **SPEED**

Attribute definition: **The segment speed field contains the average speeds categorized by FCC and defined in a Tele Atlas(R) FCC-to-Speed table document. The units are in miles per hour.**

Attribute label: **F_ZLEV**

Attribute definition: **This field indicates the Z-axis relative elevation of a segment in the digitized 'To-from' direction. '0' indicates ground level; '1' indicates structures elevated one level above ground; '-1' indicates structures one level below ground level, etc**

Attribute label: **T_ZLEV**

Attribute definition: **This field indicates the Z-axis relative elevation of a segment in the digitized 'To-from' direction. '0' indicates ground level; '1' indicates structures elevated one level above ground; '-1' indicates structures one level below ground level, etc.**

Attribute label: **FT_DIR**

Attribute definition: **The FT_Dir field conveys information about the described direction of travel along highways in the digitized From-to direction. This directional is not part of the recognized postal name. Permissible values for this field are N, S, E, W, NE, SE, NW, SW.**

Attribute label: **TF_DIR**

Attribute definition: **The TF_Dir field conveys information about the described direction of travel along highways in the digitized To-from direction. This directional is not part of the recognized postal name. Permissible values for this field are N, S, E, W, NE, SE, NW, SW.**

Attribute label: **POSTAL_L**

Attribute definition: **The enclosing 5-digit ZIP Code area on the left side of the street segment.**

Attribute label: **POSTAL_R**

Attribute definition: **The enclosing 5-digit ZIP Code area on the right side of the street segment.**

Attribute label: **STATE00_L**

Attribute definition: **The State on the left side of the street segment.**

Attribute label: **STATE00_R**

Attribute definition: **The State on the right side of the street segment.**

Attribute label: **COUNTY00_L**

Attribute definition: **The County on the left side of the street segment.**

Attribute label: **COUNTY00_R**

Attribute definition: **The County on the right side of the street segment.**

Attribute label: **MCD00_L**

Attribute definition: **The Town on the left side of the street segment.**

Attribute label: **MCD00_R**

Attribute definition: **The Town on the right side of the street segment.**

Attribute label: **PLACE00_L**

Attribute definition: **The Village on the left side of the street segment.**

Attribute label: **PLACE00_R**

Attribute definition: **The Village on the right side of the street segment.**

Attribute label: **L_F_ADD**

Attribute definition: **Beginning address on left side of the road as one travels in an increasing direction (generally east or south)**

Attribute label: **L_T_ADD**

Attribute definition: **Ending address on left side of the road as one travels in an increasing direction (generally east or south)**

Attribute label: **R_F_ADD**

Attribute definition: **Beginning address on right side of the road as one travels in an increasing direction (generally east or south)**

Attribute label: **R_T_ADD**

Attribute definition: **Ending address on right side of the road as one travels in an increasing direction (generally east or south)**

Attribute label: **FULLSTNAME**

Attribute definition: **Full Street Name**

Attribute label: **STATEABBR**

Attribute definition: **State Abbreviation**

Attribute label: **G_PREDIR**

Attribute definition: **Pre-direction of street name (i.e. E, W, S or N)**

Attribute label: **G_ST_NAME**

Attribute definition: **Street Name**

Attribute label: **G_ST_TYPE**

Attribute definition: **Street Type**

Attribute label: **G_POSTDIR**

Attribute definition: **Post-direction of street name (i.e. E, W, S or N)**

Attribute label: **ZIPNAME_L**

Attribute definition: **The name of the enclosing 5-digit ZIP Code area on the left side of the street segment.**

Attribute label: **ZIPNAME_R**

Attribute definition: **The name of the enclosing 5-digit ZIP Code area on the right side of the street segment.**

Attribute label: **SWIS_L**

Attribute definition: **The SWIS Code area on the left side of the street segment.**

Attribute label: **SWIS_R**

Attribute definition: **The SWIS Code area on the right side of the street segment.**

Attribute label: **ROADTYPE**

Attribute definition: **Road Classification (Expressway, State Highway, County Highway, Town Road, Village Road, Seasonal Road, Private Road, or Park Road)**
